HEIBus

Smart HEI-Business collaboration for skills and competitiveness

The **HEIBus** project focuses on strengthening the collaboration between Higher Education Institutions (HEIs) and companies by creating new innovative cooperation models.

Multidisciplinary Real Life Problem Solving (RLPS)

Students from different study programs and nationalities are brought together to form mixed groups in order to solve a real-life problem given by a company.

Expert Level Real Life Problem Solving (EXPERT)

Companies introduce a real life problem to be solved by a team of experts from HEIs and companies in order to boost new innovative ideas.

Flexible Student Mentoring by Companies (Flex Mentoring)

This cooperation model aims to find and test flexible ways to involve companies in the education process of students from the beginning till the end of the studies.
